

ZENT

Emmanuel Vincent T. Mandolado

Salesforce Architect & AI Developer.

emmanuel.vincent.mandolado@gmail.com · Philippines (Remote) · GMT+8

zent-portfolio.vercel.app

Eight years inside the Salesforce ecosystem — from junior analyst at Meralco, through Solution Architect roles at Showroom and PCCW Solutions, to leading Marketing Operations Development at RingCentral today. Delivered enterprise CRM at Nasdaq, Simplus (Infosys), and Cloudstaff. Outside the day job, I build solo: multi-agent AI pipelines, voice-driven knowledge systems, and production platforms — all live at zent-portfolio.vercel.app.

01 — SALESFORCE EXPERTISE · 8+ YEARS

C l o u d s Sales · Service · Marketing · Commerce · Data · Einstein AI · Experience
S t a c k Apex · LWC · Aura · Visualforce · MuleSoft · Heroku · CPQ · Pardot · Shield
C e r t s Salesforce App Builder · Salesforce Vlocity Developer

02 — PROFESSIONAL EXPERIENCE

Marketing Operations Development Lead · *RingCentral* Feb 2025 — Present

One of the world's leading cloud communications providers · 400,000+ businesses globally · UCaaS · CCaaS · AI

- › Lead marketing operations engineering across global teams
- › Drive marketing technology architecture, automation pipelines, and developer-led MOps initiatives that scale demand-gen and lifecycle marketing
- › Bridge engineering, marketing, and Salesforce architecture to deliver scalable martech infrastructure

SALESFORCE · MARKETING CLOUD · MARKETO · WORKATO · MARTECH · AUTOMATION

Salesforce Solution Architect · *Showroom*

Mar 2023 — Jan 2025

Growth-stage B2B marketplace · Most senior technical role

- › Owned end-to-end Salesforce architecture across Sales, Service, Marketing, Commerce, Data, and Einstein AI clouds
- › Led a team of 2 admins/devs through full CRM implementation from requirements to deployment
- › Delivered Einstein Bot, Data Cloud customer profiles, and Commerce Cloud storefront integrations
- › Responsible for all integrations, QA, risk management, and disaster recovery planning

SALES CLOUD · SERVICE · MARKETING · COMMERCE · DATA CLOUD · EINSTEIN AI

Senior Salesforce Developer → Solution Architect · *PCCW Solutions Limited*

Aug 2022 — Feb 2023

IT services & BPO division of PCCW Group · MuleSoft partner · Lenovo-PCCW JV

- › Lead enterprise Salesforce architecture and delivery across multi-cloud client implementations
- › Manage a team of 5 Salesforce developers/admins across concurrent CRM transformation projects
- › Design MuleSoft integrations and API-led connectivity for cross-system data consistency
- › Own technical solutioning, client advisory, code reviews, and end-to-end delivery accountability

SALES CLOUD · SERVICE · MARKETING · MULESOFT · EXPERIENCE CLOUD

Salesforce Developer Specialist · *Nasdaq, Inc.*

Apr 2020 – May 2021

\$7.4B revenue · Global capital markets technology · NYSE: NDAQ

- › Built and maintained Salesforce customisations across Sales, Service, Marketing, and Commerce Cloud
- › Developed LWC and Aura components handling complex API callouts for institutional client workflows
- › Managed system audits, upgrades, and data feed integrations within a high-compliance financial environment

SALES CLOUD · SERVICE · FINANCIAL SERVICES · MARKETING

Senior Salesforce Developer & Admin · *Cloudstaff*

Feb 2019 – Apr 2020

Australian-founded · 6,000+ staff · Best Places to Work in Asia 2025

- › Full-stack Salesforce development: Apex, LWC, Aura, Visualforce, and Einstein Analytics dashboards
- › Delivered Conga, DocuSign, Heroku Connect, Salesforce Shield, Pardot, and Streaming API integrations
- › Managed security using Salesforce Shield and built dynamic Einstein Analytics reporting for clients

SALES CLOUD · SERVICE · HEROKU · PARDOT · EINSTEIN · SHIELD

Senior Salesforce Agent → Senior Consultant · *Simplus (now Infosys)*

Dec 2017 – Feb 2019 · May 2021 – Aug 2022

#1-rated Salesforce partner on AppExchange · Acquired by Infosys for \$250M

- › Delivered Lightning Experience implementations, Aura components, and complex API integrations for enterprise clients
- › Developed Apex triggers, LWC, and Visualforce solutions across Sales, Service, Marketing, and Commerce Cloud
- › Served as primary Salesforce admin across client orgs: users, workflows, dashboards, data feeds, integrations
- › Mentored team members and acted as liaison between clients and technical delivery teams

SALES CLOUD · SERVICE · MARKETING · CPQ · REVENUE CLOUD

Junior Salesforce Analyst · *Meralco*

Feb 2017 – Dec 2017

Philippines' largest electric distributor · Decade-long Salesforce partnership

- › Built Apex triggers/classes and Visualforce components for Meralco's Salesforce environment
- › Analysed business requirements and developed technical solutions for a mission-critical utility platform
- › Contributed to a Salesforce instance now serving millions of Filipino customers daily

SERVICE CLOUD · SALES CLOUD · ENERGY & UTILITIES CLOUD

03 – AI & FULL-STACK PROJECTS · BUILT SOLO

01. Alloy Automation System

Autonomous 8-agent pipeline that highlights the 4 automations businesses pay for.
Powered by an LLM core.

- › Speed-to-Lead: Flux (email watcher) + Tap (field extraction) + Assay (scoring/grading) qualify and route leads in seconds
- › Follow-up & Nurture: Mold agent builds personalised profiles, drives multi-touch outreach sequences
- › Document Processing: Cast auto-generates branded PDF proposals; Forge converts signed docs into structured project blueprints
- › Internal Reporting: Craft, Smelt, Temper, Anvil produce delivery guides and pipeline status outputs
- › All 8 agents powered by an LLM backbone with structured JSON output, retry logic, and Gmail API integration

PYTHON · LLM API · FLASK · REPORTLAB · BEAUTIFULSOUP4 · GMAIL API ·
MULTI-AGENT · N8N-COMPATIBLE

02. Echo (v2 + Desktop)

Voice-powered AI second brain with native cross-platform desktop client.

- › Voice input via faster-whisper (offline speech-to-text) — no cloud dependency for transcription
- › Semantic search over a personal wiki using SQLite embeddings — finds meaning, not just keywords
- › LLM-driven orchestration backbone: answers questions in context, runs daily command sessions
- › Ingests knowledge from voice, typed text, and YouTube transcripts automatically
- › Desktop client built with Tauri 2 (Rust + JavaScript) — cross-platform, significantly lighter than Electron

PYTHON · FASTAPI · LLM · FASTER-WHISPER · SQLITE · TAURI 2 · RUST ·
VOICE AI

03. Sparky

Tinder-for-social-media-marketing — brand discovery, AI post generation, and automated publishing in one pipeline.

- › Brand Discovery: extracts voice, palette, audience, and content pillars from any client to seed the generator
- › Idea Generation: LLM produces brand-aligned post drafts (copy + image direction) as a swipeable Tinder-style stack
- › Schedule & Auto-Publish: saved posts flow into a weekly calendar with auto-publishing across social platforms
- › Multi-tenant architecture — agencies can manage multiple client brands from a single dashboard
- › Pixel mascot guides the user through each stage with contextual status messages

REACT · LLM · IMAGE-GEN · SCHEDULER · MULTI-TENANT · SOCIAL APIS

04. StockPilot

AI-assisted POS & inventory management for Philippine SMEs.

- › Role-based access control, audit logging, and blueprint-per-feature architecture for maintainability
- › LLM-assisted task orchestration — automates repetitive workflows across inventory and reporting
- › Playwright E2E test suite with a live JourneyTracker overlay showing test progress in real time
- › React 19 frontend with Flask 3.0 + SQLAlchemy backend — Postgres-ready, currently on SQLite
- › Supabase integration for real-time features; full REST API for third-party connectivity

REACT 19 · FLASK 3.0 · SQLALCHEMY · LLM · SUPABASE · PLAYWRIGHT ·
PYTHON

05. Sulat

Location-based anonymous messaging — drop a thought on the map, find lanterns left by people nearby. Live at sulat.vercel.app.

- › Anonymous letters pinned to GPS coordinates — only visible to people physically within range of the drop

- › Mapbox-rendered dark-theme cityscape with rising amber lanterns marking active letters
- › PostGIS geospatial queries for radius-based discovery — server only returns lanterns within proximity
- › Real-time "send light" reactions and live nearby-lantern counter for ambient engagement
- › Built solo and shipped to production — currently live with active users

NEXT.JS · REACT · MAPBOX · POSTGIS · POSTGRESQL · VERCEL

06. SLCV Enrollment Platform

Production-grade college admissions system for a Philippine institution.

- › Multi-step applicant form with magic-link auth (no password), autosave, and bilingual EN/FIL labels
- › Drag-and-drop document uploads with magic-byte sniffing, file-type whitelist (PDF/JPG/PNG, max 10MB)
- › Staff review dashboard: filterable queue, inline doc rendering, annotation threads, bulk CSV export
- › Event-driven email notifications (5 triggers) with delivery retry logging via SendGrid/Resend/SMTP
- › 239 passing tests, bcrypt auth (cost ≥ 12), CSRF protection, rate limiting, full audit logging

FLASK · POSTGRESQL · SQLALCHEMY · PYTEST (239) · SENDGRID · JINJA2 · PYTHON
